What's New: New and better design; General UI adjustments and fixes; Minor bug fixes; Watch thousands of TV Shows and Movies online! The number one place to watch movies and TV shows! Watch our latest movie trailers! Best Free Web TV Show for the web! Watch Tv and Movies Online! If you are the type of person whose idea of entertainment is linked to the comfort of their own house, you probably are in search of a software solution bringing you all the cinemas and concert halls in the same place. A software solution such as WizeTV is here to help you if you fit the description, providing you with a generous collection of movies, TV shows, TV channels, and music. Provides you with a rich collection of movies, TV shows, music, and live TV First things first, you need to know that the program's interface, which does not necessarily stands out from the crowd aesthetically speaking, compensates by being easily accessible. Specifically, it is split into four main sections, based on the content you want to explore. What's more, multiple viewing modes are available for each of these categories in order to make navigation more comfortable. If you are interested in movies, for instance, clicking on the dedicated menu opens up several
